

Spider

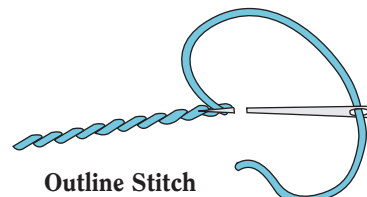

Along came a spider...and spun a web in the crook of our appliquéd cat's tail! This button-eyed bug stitches up quick with an appliquéd body and chain-stitched legs. Finish up by weaving a web of outline stitches.

We think he's found a feline friend in our appliquéd cat from the September/October 2004 (#99) issue of *Quiltmaker* magazine, but he'd be just as happy on any Halloween-inspired quilt.

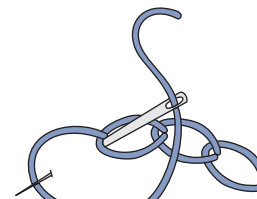

If you missed the September/October 2004 issue, or are not yet a subscriber to *Quiltmaker*, back issues may still be available at www.VillageQuiltShoppe.com.
