

Button Tree Ornaments

Complete directions and other ornaments for the Button Tree are included in the November/December 02 issue (#88) of *Quiltmaker* magazine. To keep your creative juices flowing, here are some other ornament options. You will need 30 ornaments all together, so mix and match or make extra and trade them out!

Directions for Making Ornaments:

Using see-through template material, trace each shape and cut out to make templates. For each ornament, fuse 2 scraps together, right sides out.

Trace the template on the fused scraps and then cut out the ornament.

Loop a 4-6" piece of cording and tack or glue the ends in place at the top of each ornament. Hang the ornaments from the buttons.
